LATIN AMERICAN GOLD COINS

G1	<u>BOLIVIA</u>	14 Grammos 1952 Fr41	UNC, the scarce type in the series . . .	190.00
*G2	<u>BRAZIL</u>	4000 Reis 1753 Fr73.	Boldly struck EF-AU	275.00
GA3	<u>CHILE</u>	8 Escudos 1836 Guttag 1016	Pattern in silver, gold gilded. Very similar to Y30 of which it is the forerunner. EF-AU	150.00
G3		-8 Escudos 1836 Guttag 1017	Copper Pattern. F-VF, but decent	75.00
G4		-10 Pesos 1853 Fr45.	Nearly VF	120.00
*G5	<u>COLOMBIA</u>	- Santa Fe de Bogota 1 Escudo 1808 JF	Fr65 Ferdinand VII legend. The first specimen of this date we have seen. VF, <u>RR</u>	250.00
*G6		-Bogota 8 Escudos 1783 JJ	Fr35 Carlos III. EF, obverse is quite polished, but nonetheless it is not an unattractive gold coin.	525.00
G7	<u>COSTA RICA</u>	1 Escudo 1855 JB	Fr9. VF-EF, above average striking, <u>R</u> . . .	150.00
G8		-2 Escudos 1858 GW	Fr8. Nice VF, perhaps better	150.00
G9		-1 Peso 1864 GW	Fr15. Bold and Lustrous EF, scarcer date	75.00
G10		-1 Peso 1866 GW	Fr15. Variety with small "UN" in value. VF+	50.00
G11		-1 Peso 1866 GW	Fr15. Variety with large "UN" in value. Choice EF-AU	85.00
G12		-2 Pesos 1866 GW	Fr14. VF, some luster, scarcer type	135.00
*G13	<u>GUATEMALA</u>	8 Pesos 1864 R	Fr33. EF, fully lustrous. EXTREMELY RARE TYPE with a mintage under 500 pieces! By 1937, Wayte Raymond recognized its scarcity by calling it "Extremely Rare" and pricing it at the same level (\$200) as the 8 Escudos 1751 of Guatemala. The latter piece realized \$37,000 in the 1975 ANA auction. With a frequency of appearance on the market of every 2 years or so, this coin is now quite undervalued. This specimen is superior to the Raymond collection specimen.	2000.00
G14	<u>PERU</u>	- CUZCO 1 Escudo 1845 A	Fr67. F-VF or less due to polishing . . .	50.00
*G15	<u>SALVADOR</u>	5 Pesos 1892	Fr3. Lustrous EF, scarce and popular.	1000.00

The above selection of Latin American gold is decidedly meager and yet it includes every piece in our present stock. It might be recalled that our last list mentioned 14 better pieces in our stock, but without any prices given. Even so, we sold ten of these coins to the numerous persons who inquired about one or more of them. Yet, in the same section, we asked that our clientele offer us any duplicates that they might prefer to dispose of, and we received no offers to sell. We do have the interest and the necessary purchasing power to buy any interesting and fairly priced specimens you might care to offer us.

To offer good coins, we must first obtain them. Please let us hear from you.

CROWNS OF LATIN AMERICA

*72	BOLIVIA - REPUBLIC (Cont.) Boliviano 1877/6FE (E158a), Y64. The 1877 date is quite rare with auction records over \$700 in EF. As an overdate, we know of no other specimens. The underdate, 1876, is unknown in the Boliviano series. This nice VF-EF is well struck and doubtlessly EXTREMELY RARE.	550.00
*73	-Boliviano 1879FE E160, Y64. VF-EF, very bold, slightly rough planchet near obverse rims as struck. Almanzar sold a similar grade specimen in his April 1974 auction for \$660. Ours offered at	500.00
74	BRAZIL 960 Reis 1810 Bahia E2, C94. Clearly struck over Potosi 8 Reales 1793. Unusually attractive broad planchet. Toned VF-EF.	40.00
75	-960 Reis 1814 Bahia E16, C94. Struck over Potosi 8 Reales 1774JR. Very unusual on a date so early. Bold EF	60.00
76	-960 Reis 1819 Rio E31, C117. Struck over the extremely rare Santiago 8 Reales 1811 FJ with standard bust (a \$5000 coin). Lustrous EF	125.00
77	-960 Reis 1820 Rio E37, C117. EF+, beautifully toned	35.00
78	-960 Reis 1821 Rio E39A, C117. Nice toned EF	32.50
*79	-960 Reis 1825 Bahia E46, C138. Struck over Mexico 8 Reales 1823, showing full profile of Emperor Augustin Iturbide. As an 1825 Bahia, this specimen is worth one hundred dollars. The rarity of the undercoin is reflected in the following statements from pages vii and viii of Pete Hamilton's new booklet <u>The Coins of Brazil 1683-1822</u> : "Perhaps the most rare one can find (as the undercoin) are those coins which are almost one-of-a-kind types. . . . (such as the) Mexico Iturbide 8 Reales. . . . There is no logical explanation how these coins got mixed in with the general (colonial bust type) 8 Reales being used for 960 Reis production but they did and are probably unique." Quite rare and interesting. VF	200.00
*80	-960 Reis 1825R E47, C138. Beautifully toned AU-UNC, R grade	75.00
81	-2000 Reis 1851 E63, C190. EF, much above average	25.00
82	-2000 Reis 1852 E64, C190. EF or nearly so, toned	20.00
83	-2000 Reis 1863 E72, C194. Toned EF.	20.00
*84	-2000 Reis 1866 E75, C194. AEF, lightly cleaned, RRR date	300.00
85	-2000 Reis 1888 E83, C201. EF-AU, attractive delicate toning	18.50
*86	-2000 Reis 1900 E88, Y10 Discovery Commemorative. Very Sharp EF+	145.00
*86A	-4000 Reis 1900 E90, Y11. Cabral Commemorative issued on the 400th anniversary of the discovery of Brazil by Pedro Alvares Cabral on April 22, 1500. This is the scarcer variety with 20 rays around the "Star of Discovery" under Cabral's hat (which has not been counterfeited unlike the more common 16 rays variety). Superbly toned A. Unc, very desirable. Priced as a Type coin at	650.00
*87	CHILE - SANTIAGO Colonial 8 Reales 1786DA E35, C24 Carlos III. First and foremost, a VERY RARE TYPE in EXTREMELY RARE condition; factually, the <u>Finest Specimen</u> of the <u>Type</u> seen by us. Secondly, this date is so rare it was missing in the Medina collection (Medina lived in Santiago and endeavored to assemble a complete collection from his home country. His collection of Chilean coins now forms the nucleus of the national bank collection in Chile.) This date was also not in the fabulous Elizondo collection nor did Calbeto own a specimen. In fact, when Calbeto compiled his extensively researched compendium in the period of 1965-70, he was unable to obtain a photo of any specimen to include in his book. Furthermore, he did not cite a single recent collection which included this date. In the 1944 book of the Santiago national mint, this date was not listed as being confirmed by them. Both Dasi and Calbeto cite Herrera as their confirmation of the existence of this date; it is likely that Wayte Raymond and Elizondo were also using the same reference. On page 270 of <u>El Duro</u> , Herrera names <u>one</u> collection that included this coin. Assuming that that specimen was different than the Faistauer example, this is the third piece known to us. Its fabulous condition combined with its rarity present a splendid investment opportunity. Superb naturally toned Extremely Fine with bold details and no defects.	2950.00

WE AT FREEMAN CRAIG & COMPANY hereby present our first price list prepared at our new offices in beautiful Marin County. As announced in our list No. 28 published last March, we relocated our offices during April and May. We now occupy over 1000 square feet of very comfortable working area at the edge of the San Francisco Bay immediately north of the famous Golden Gate Bridge depicted on our front cover. Our new headquarters is only 20 minutes by automobile from the previous location in San Francisco's busy financial district.

Whereas a somewhat frenzied pace characterized the style of the banking district, our new offices are located in a scenic relaxed residential area. Already we have found our pace slowed, but concurrently we have increased vitality and interest in pursuing the more intellectual aspects of numismatics such as researching and organizing available data.

Our goals as dealers in rare and desirable antique coins shall remain as before; our primary speciality will still be the coinage of Latin America. Our new facilities should help us to attain our goals with regard to publishing some articles and books related to our specialities. Future plans also include formation of a paper money division (specializing in Latin American issues, of course) as well as an auction division.

THE MINOR COINAGE OF LATIN AMERICA

will be the sole subject of our list No.30 in July. In the past several months, we have traveled over 20,000 miles (within the USA) in an attempt to assemble a representative group of Latin American minor coins for that special list. Many of you will recall our list No.22 of August 1975; we doubt that we can match that truly outstanding offering but we shall certainly try to equal or surpass it. Already we have assembled approximately 2000 scarce-to-rare items for possible inclusion in that important catalogue. We are in need of one or more collections to augment our present group; if you would be willing to help by selling us some or all of your holdings of Latin American minor coins, please write as soon as possible.

TERMS OF SALE: Coins are available on approval only to those who have previously established an account with us and who have a good payment record. Others are kindly requested to pay on invoice and thereby begin establishing an account. New customers should provide references and allow a few days for checks to clear our bank. On all approval orders, payment should be sent within eight days of receipt of the coins. All coins are guaranteed as described. We allow a full week's return privilege.

POSTAGE AND INSURANCE: We will pay postage on all domestic orders received with payment. Approval buyers will be billed for postage and Insurance. Overseas orders will be billed for postage, registration and 1% for insurance. Payment is acceptable in U.S. dollars only.

All coins are subject to prior sale. We appreciate alternate choices and guarantee they will only be used as such.

Postage Paid by us on all Telephone or Telegram Orders, Foreign or Domestic
